Leta's lineage and descendants,

Leta's daughter, Arla has furnished me with a complete list of Leta's family, and I doubt if you would want to include a ll of it in a Park history. Apparently she had two husbands, five children, 19 grandchildren, and to date 14 great grandchildren! I will enclose her list - which it would be nice to have back sometime - and the family can use of it what they wish. Arla would like to have a copy assuming it will eventually be all put together.

May I suggest again that you contact Jean Reisler, 2509 Brsufort, Toledo, Ohio, 43613. She is the only offspring of the late Ila and Herbert Reisler, and a cousin of ours, Dad's brother's granddaughter. She has made it a hobby to trace to Park descent, has visited cemeteries for names, and attends the annual rally of the Park tribe. She has gathered more information than any others of us possess, and will be only too happy to share her research with you.

Both Lillian and I are feeling the effects of growing older, but we plan to go to Florida again the first week of Nov. We will be driven down by cousins from Toronto. But we have had a busy and pleasant summer. It was good to have Barbara visit us and get to meet two of the children. May we extend our best wishes to all.

Cordially yours,

Uncle Clifford

P.S. we will have a few addresses of people who might like to attend a rally nexy summer.
