Dear Wesley - I have been hearing of you indirectly but thought it was time I wrote to you. I have just returned from a big convention in Buffalo N.Y. It was a meeting of doctors, nurses, government agents and engineers working in the field of industrial health. At this meeting I, along with a lot of other doctors, was made a fellow of the Industrial Medical Association. I made some new acquaintances and met a lot of my old friends there. There were people I knew from Deep River, Ottawa, Montreal, Toronto and all parts of the United States.

Just now I am sitting in the car while Warren is riding around in the park on his new bicycle which we got him for his birthday on April 20th. He is nine. We are all quite well and getting along all right although we miss Catherine very much. Today Warren was presented with a new bible by the Sunday school. The ceremony was held in the church. There were about 200 children in the group. Warren was wishing mother could have been there. We have a woman doing most of our housework. We don't see much of her because she does her work while we are not around and does not do much for us on Sat. and Sundays. She eats in her own apartment on our 2nd floor.

I was interested in your contact with Audrey Shipley. I wish it could lead to something more intimate in your life.

I hope you are enjoying your work and do not find the job too difficult for you. I am sure you will have some very interesting experiences and will bring back many memories when you come to visit us again.

Warren and Robert are interested in collecting stamps and they have been sharing the stamps which come from you by way of your mother. All three boys are also collecting foreign coins.

We may drive to Ontario for a week's vacation this summer if all goes well. Write us again when you have time. Best of everything to you and your new work.
