July 3/66.

Dear Wesley and Irene,

Congratulations on the arrival of your son Jonathon Craig. This must have created quite a stir in the Leonard family. You will have a lot of satisfaction as well as challenges over the next few years. It was nice to hear from you and to learn what you are doing. Your church work must be a real joy to you.

We are carrying on here as usual with both of us living a very full and responsible life. Responsibilities have multiplied for both of us at work.

Robert is looking forward to completing his Ph.D. work in Chemical Engineering this fall. Then he wants to go into teaching in some university or college in Southern United States.

James completed his work at Union Theological Seminary in New York and graduated on May 2, 1966 with a degree of Bachelor of Sacred Theology.

He has been placed by the Minnesota Methodist Conference in a college ~~town~~ town

35 miles south of here. He has the campus ministry to Methodist students at the two Colleges - St. Olaf's and Carleton. He also has two small country churches a few miles out of the town. His address is 517 west 2nd St. Northfield, Minnesota. He preached his first sermon there today. We expect to visit his churches next Sunday.

Warren has completed two years at the University of Minnesota, Duluth Branch and is transferring to the Minneapolis Campus this fall. During this summer he is working for the Minneapolis Park Board again. He is now in charge of one of the refectories on one of the lakes in the City where there is a large swimming beach.

We expect to attend the am. Public Health Association meeting in San Francisco the first of November. When there we will visit Douglas who is moving to Sunnyvale, California to work for the Lockheed Aircraft Company. We don't have his new address yet. We hear that Betty and Murray are trying to buy a $1\frac{1}{2}$ acre farm on the St. John river just out of Fredericton, N. B.

Yours Wilford and Evelyn
